

OLEH STELMASHCHUK

FULL STACK DEVELOPER

SKILLS

Hi! I'm Oleh Stelmashchuk, an experienced Senior Full Stack JavaScript Developer from Ukraine. I have more than 5 years of experience in creating dynamic web applications.

Key skills:

Front-end

React.js, Next.js, Tailwind, CSS3, HTML5, and SASS. Google Firestore and Firebase. Redux and Saga. Bootstrap, Ant Design, and Material UI. JavaScript and TypeScript.

Back-end

Node.js (Express.js) and Nest.js. Socket.IO. AWS services like DynamoDB, EC2, and S3. JWT authentication. SQL, PostgreSQL, and MongoDB.

Mobile

React Native for both iOS and Android mobile app development. IDEs like XCode, Android Studio, and VSCode. Third Party APIs like Twilio, Stripe, Google Maps, MapBox, and Google Analytics. TestFlight, FB distribution, and App Center. CLI/Expo for mobile app development.

CERTIFICATIONS

Node.js / Nest.js

Provider: Mate Academy

Issued: August 2019 - Expires: July 2020

React.js / React Native

Provider: Mate Academy

Issued: March 2018 - Expires: February 2019

EXPERIENCE

FULL STACK JAVASCRIPT DEVELOPER/ SIGMA SOFTWARE

October 2021 - April 2023

I was a versatile programmer, personally developing a functional product from scratch. As a specialist who understands both the Back-end component (software and hardware part of the service) and the Front-end (user interface), I performed many different tasks

FRONT-END JAVASCRIPT DEVELOPER | SOFTSERVE

August 2019 - September 2021

At Sigma Software, I have worked as a JavaScript Front-End Developer on a variety of projects for clients from various industries. I have used React, Angular or Vue.js depending on the project requirements, as well as Bootstrap, Material-UI or Foundation to create visually appealing user interfaces. I also used Node.js, Express, MongoDB, and Firebase to implement back-end logic and data storage. I collaborated with designers using Figma to get mockups and specifications, and with other developers using Git, GitHub, Slack, and Jira to manage code and collaborate. I wrote clean, efficient, and semantic code, adhering to code quality criteria and company standards.

REACT JS/REACT NATIVE DEVELOPER | GLOBALLOGIC

May 2017 - September 2019

At GlobalLogic, I worked as a React.js, React Native developer on mobile applications for Android and iOS. I used React Native to build native, fast, and user-friendly user interfaces. I also used React.js to build the web version of the apps. I collaborated with designers using Figma for mockups and specifications, and with other developers using Git, GitHub, Slack, and Jira for code management and collaboration. I wrote clean, efficient, and semantic code, adhering to code quality criteria and company standards.
